

Munken Kristall Rough

Extraordinary printing demands extraordinary design paper. The uncoated, extra tactile surface of Munken Kristall Rough and its true highwhite shade make a perfect combination for well-defined images and even more of a natural paper feel. Thanks to high bulk you can choose a lower grammage and keep thickness as well as paper stability for the best final result. Munken Kristall Rough is developed for offset print and also suitable for various kinds of printing techniques; flexo, laser, xerography, digital printing, inkjet and for preprint applications. The Munken Design range is also available as a cream shade – Munken Pure Rough, a natural white version – Munken Lynx Rough and a crisp white – Munken Polar Rough.

Munken Kristall Rough standard products are available as EU Ecolabel, FSC® – The mark of responsible forestry. www.fsc.org. FSC-C020637 and PEFC™ PEFC/05-33-99 certified.
